ANNOUNCEMENT

The Central Board of Irrigation & Power in association with CIGRE India & CIRED is organizing National Conference on 'Role of Distribution Systems and Distributed energy resources - Planning for 2030 and Beyond' on 9 - 10 October 2025 at CBIP Conference Hall, Chanakypuri, New Delhi - 21.

INTRODUCTION & BACKGROUND

The rapid transformation of the energy sector—driven by decarbonization, decentralization and digitalization—is placing distribution systems at the centre of Power System evolution. Distributed Energy Resources (DERs), including rooftop solar, battery storage, electric vehicles, and demand-side flexibility are reshaping how electricity is generated, managed, and consumed.

As we approach the energy outlook of 2030 and beyond, it becomes essential to reimagine distribution planning frameworks, investment strategies, and regulatory approaches to accommodate these shifts while ensuring reliability, affordability, and sustainability.

In this context, CBIP is organizing a National conference to deliberate on the “Role of Distribution Systems and Distributed Energy Resources (DERs) - Planning for 2030 and beyond”, bringing together key stakeholders including utilities, regulators, policymakers, technology providers, manufacturers and experts from the sector.

AIM OF THE CONFERENCE

The conference aims to provide a platform for utility professionals, policymakers, researchers, technology providers, and system planners to share perspectives, challenges, best practices and innovative solutions related to the evolving role of distribution systems and DERs in future Power Systems.

OBJECTIVES

- To explore emerging technologies, planning methodologies, and regulatory frameworks enabling the integration of DERs.
- To highlight best practices and case studies from national and international utilities.
- To encourage association between stakeholders in shaping resilient, smart and customer-centric distribution systems.
- To support capacity building and technical knowledge sharing in alignment with India's energy transition goals.

TOPICS

The conference will address the key thematic areas but not limited to, are as under:

1. Distribution System Planning and Modernization – Infrastructure upgrades, digitalization, load forecasting, and grid automation.
2. Integration of Distributed Energy Resources (DERs) – Rooftop solar, electric vehicles, storage systems, and demand response.
3. Regulatory, Policy, and Market Mechanisms – Reforms enabling DER integration, peer-to-peer trading, and tariff design.
4. Resilience, Reliability, and Flexibility – Strengthening system performance under variable and uncertain conditions.
5. Metering and Revenue Realization – Smart metering, data management, revenue protection and consumer engagement.

CALL FOR PAPERS

We encourage experts in the above areas to contribute to this important conference. Eminent experts from Utilities, Manufacturing organizations and Academic field have been invited to make expert presentation during the Conference. The professionals who desire to make presentations/case studies on the above subject are also welcomed. Please arrange to send us a before 1st October 2025.
